Memo: Good Friday Holiday Sampling

Due to the upcoming Good Friday holiday GBRA will be closed on Friday, April 10th. All samples for Nitrates, E.coli, Fecal Coliform and/or Total coliform during that week should be collected and brought in by Wednesday, April 8th in order to process within hold times. HPC samples must be received by Tuesday, April 7th.

For all microbiological and nitrate samples (Total coliform, HPC, E. coli and fecal coliform), please review the following schedule:

*Mon, April 6th: Regular schedule
*Tues, April 7th: Last day to bring in HPC
*Wed, April 8th: Last day to bring in Nitrates, E.coli, Fecal Coliform and/or Total coliform
*Thurs, April 9th: NOT accepting microbiological samples or Nitrates
*Fri, April 10th: GBRA CLOSED

Note: Not all sample collectors have provided us with work emails separate from the main plant operator. This email is only sent to the operators whose emails we have on file. Please inform all potential samplers of this collection constraint in order to avoid breaking hold times and/or holiday fees.

Thank you for your cooperation.
