

Updated Canyon Reservoir Advisory
June 3, 2019

At the request of the U.S. Army Corps of Engineers, and further reconsideration, GBRA will not be increasing the water release from Canyon Reservoir to 500 cfs overnight, June 3. The water release will remain at 350 cfs until further notice. Currently, the Canyon Lake level has increased to 909.75 ft.

Property owners, recreationalists and other stakeholders should take notice of the changing river flows. Additional information about Canyon releases and other stream flow data may be found at <https://bit.ly/2NI2HTz>.
