

GBRA parks, including Coletto Creek, Lake Wood, and Nolte Island, will remain closed to visitors until April 15. While this decision is unpopular, GBRA is focusing on ensuring employees, their families, visitors and guests are safe during this public health crisis. GBRA will continue to evaluate its park operations and weigh recommendations by health experts to determine the best course of action to protect people and their parks going forward. Please note all rescheduled reservations are contingent upon the parks' reopening. We appreciate your cooperation and patience during this time of uncertainty.
